PROFESSIONAL PROFILE

Digital marketing and MarTech specialist with 5+ years of hands-on experience across paid acquisition, CRM systems, SEO, analytics, website development and automation. Currently manages performance marketing and the supporting marketing systems for a UAE real-estate business, covering lead tracking, CRM workflows, WhatsApp/SMS integrations, conversion tracking and WordPress development. Combines marketing ownership with technical implementation to improve lead quality, reduce manual work and make the acquisition-to-sales process easier to measure and manage.

CORE EXPERTISE

Performance Marketing: Meta Ads, Google Ads, paid acquisition, high-ticket lead generation, campaign strategy, audience and placement strategy, creative direction, funnel optimization, CRO, landing-page optimization, CPL and lead-quality analysis.

CRM & Marketing Operations: Custom CRM development, lead management, Meta Lead Ads integration, lead lifecycle, lead routing, SLA workflows, WhatsApp API, SMS integration and marketing automation.

Analytics & Attribution: GA4, Google Tag Manager, Meta Pixel, conversion tracking, custom events, UTM tracking, attribution checks, custom dashboards and campaign reporting workflows.

SEO, Web & Automation: Technical SEO, on-page SEO, keyword strategy, Google Search Console, WordPress, WooCommerce, Shopify, Elementor, HTML/CSS, APIs, webhooks, n8n, Make, scheduled scripts and automated publishing workflows.

PROFESSIONAL EXPERIENCE

Information Technology Consultant | Digital Marketing, MarTech & Automation

Apr 2025 - Present

Oplus Realty - Abu Dhabi, UAE

- Manage end-to-end Meta Ads and Google Ads for the UAE real-estate market, covering campaign setup, audience and placement strategy, creative direction, landing pages, CPL and lead-quality review, and ongoing optimization for high-ticket acquisition.
- Designed and built a custom CRM connected to Meta lead sources, WhatsApp and SMS, including lead assignment, routing, lifecycle stages and SLA-based follow-up workflows for the sales team.
- Develop and maintain the company WordPress website, adding custom functionality beyond the original commercial theme and improving landing pages, technical SEO, site speed and user experience.
- Set up and maintain GA4, Google Tag Manager, Meta Pixel, UTM structures and conversion events, using tracking and CRM status to review funnel performance and attribution quality.
- Build marketing operations automations using APIs, webhooks, n8n, Make and scheduled scripts for reporting, lead/data handling and recurring workflows.
- Produce advertising creatives with Adobe Photoshop and AI-assisted production workflows, using campaign and sales feedback to guide new variations and execution priorities.
- Built an internal SEO content workflow covering research, drafting, optimization and publishing, enabling repeatable search-focused content production.

SELECTED MARKETING TECHNOLOGY PROJECTS

CRM & Lead Operations - Real Estate and Travel

- Built separate CRM workflows for real-estate and travel operations, adapting lead stages, assignment rules, communications and follow-up processes to each business instead of forcing one generic workflow.

Automated Content & Publishing Systems

- Built automation for SEO content and two digital news properties that collects source data, processes and enriches content, validates required fields and publishes updates with minimal routine manual intervention.

Reporting & Scheduled Automation

- Built custom reporting views from advertising-platform exports, used API integrations where direct data access made sense, and created scripts that run locally or on a server on scheduled intervals.

Multi-brand Web & E-commerce Operations

- Managed and improved company-owned websites across real estate, e-commerce, travel and digital publishing, covering SEO, site speed, custom functionality, content operations, technical maintenance and digital marketing support.

EARLIER EXPERIENCE

Freelance Digital Marketing Specialist & Website Manager

Jan 2021 - Mar 2025

Remote

- Designed, managed and improved websites using WordPress, Shopify, Joomla and Drupal, with responsibility for content, SEO, site performance and ongoing technical maintenance.
- Implemented technical SEO, on-page optimization, keyword strategy and content improvements for client websites and landing pages.
- Managed paid digital campaigns and lead-generation funnels, including tracking setup, landing-page optimization and campaign performance analysis.
- Delivered digital solutions that combined marketing, website management, CRM or API integrations and workflow automation based on each business need.

TECHNICAL & MARKETING TOOLKIT

Advertising: Meta Ads Manager, Google Ads, lead generation, audience and placement strategy, landing pages, CPL monitoring and lead-quality analysis.

Analytics & Reporting: GA4, Google Tag Manager, Meta Pixel, UTM tracking, conversion events, attribution checks, custom dashboards and API-based reporting.

CRM & Automation: Custom CRM, n8n, Make, webhooks, REST APIs, WhatsApp API, SMS workflows, lead routing, SLA workflows and scheduled scripts.

SEO & Web: WordPress, WooCommerce, Shopify, Elementor, HTML/CSS, Google Search Console, SEMrush, Ahrefs and Moz.

Creative & Content Operations: Adobe Photoshop, Figma, AI-assisted creative production, Arabic voice-over workflows and automated publishing systems.
