PROFESSIONAL PROFILE

Digital marketing and MarTech specialist with 5+ years of hands-on experience in paid acquisition, SEO, CRM systems, website development, analytics, attribution and automation. Currently responsible for performance marketing and marketing systems for a UAE real-estate business, including five-figure monthly ad budgets, lead tracking, CRM workflows, WhatsApp/SMS integrations and WordPress development. Works across marketing and technical execution to improve lead quality, reduce repetitive work and make the acquisition-to-sales process easier to measure and manage.

CORE EXPERTISE

Performance Marketing: Meta Ads, Google Ads, paid media, high-ticket lead generation, budget management, audience and placement strategy, funnel optimization, CRO and landing-page optimization.

CRM & Marketing Operations: Custom CRM development, marketing automation, lead management, Meta Lead Ads integration, WhatsApp API, SMS integration, lead routing, SLA workflows, n8n, Make, webhooks and API-based automation.

Analytics & SEO: GA4, Google Tag Manager, Meta Pixel, UTM tracking, conversion events, campaign attribution, CPL and lead-quality analysis, dashboard reporting, technical SEO, on-page SEO, keyword strategy and Google Search Console.

Web & Content Operations: WordPress, WooCommerce, Shopify, Elementor, custom website features, website performance, AI-assisted creative production, scheduled scripts and automated publishing workflows.

PROFESSIONAL EXPERIENCE

Information Technology Consultant (Digital Marketing & Automation)

Oplus Realty - Abu Dhabi, UAE | Apr 2025 - Present

- Manage end-to-end Meta Ads and Google Ads campaigns for the UAE real-estate market, including five-figure monthly budgets, audience and placement strategy, creatives, landing pages, CPL, lead-quality review, campaign reporting and ongoing optimization for high-ticket lead generation.
- In recent campaigns for properties priced from AED 1M to AED 6M, qualified leads represented roughly 15% to 40% of total leads, with qualified prospects progressing to online and in-person meetings.
- Designed and built a custom CRM connected to Meta lead sources, WhatsApp and SMS, with lead assignment, routing and SLA-based follow-up workflows for the sales team.
- Develop and maintain the company WordPress website, adding custom functionality beyond the original theme and improving landing pages, technical SEO, site speed and user experience.
- Set up and maintain GA4, Google Tag Manager and Meta Pixel tracking, including UTM structure, conversion events and attribution signals used to review campaign performance and the marketing-to-sales funnel.
- Produce advertising creatives with Adobe Photoshop and AI-assisted design tools, including internal workflows for creative and copy variations and Arabic voice-over production, then use campaign and sales feedback to guide the next campaign assets.
- Built an internal SEO content workflow covering research, article drafting, optimization and publishing, supporting stronger search visibility and organic traffic.

SELECTED MARKETING TECHNOLOGY PROJECTS

CRM & Lead Operations - Real Estate and Travel

- Built separate CRM workflows for real-estate and travel operations, adapting lead stages, assignment rules, communications and follow-up processes to each business instead of forcing one generic workflow.

Automated Content & Publishing Systems

- Built automation for SEO content and two digital news properties that collects source data, processes and enriches content, validates required fields and publishes updates with minimal routine manual intervention.

Multi-brand Web & E-commerce Operations

- Managed and improved company-owned websites across real estate, e-commerce and publishing, covering SEO, site speed, custom functionality, content operations, technical maintenance and digital marketing support.

Reporting & Scheduled Utilities

- Build custom campaign dashboards and small automation scripts from ad-platform exports or API data, with scheduled execution when recurring reporting or data processing is needed.

EARLIER EXPERIENCE

Freelance Digital Marketing Specialist & Website Manager

Remote | Jan 2021 - Mar 2025

- Designed, managed and improved websites using WordPress, Shopify, Joomla and Drupal, with responsibility for content, SEO, performance and ongoing technical maintenance.
- Implemented technical SEO, on-page optimization, keyword strategy and content improvements for client websites and landing pages.
- Managed paid digital campaigns and lead-generation funnels, including tracking setup, landing-page optimization and campaign performance analysis.

- Delivered digital solutions that combined marketing, website management, CRM or API integrations and workflow automation based on each business need.

TECHNICAL & MARKETING TOOLKIT

Advertising & Measurement: Meta Ads Manager, Google Ads, GA4, Google Tag Manager, Meta Pixel, UTM tracking, conversion events, campaign attribution, CPL monitoring and lead-quality analysis.

SEO & Web: WordPress, WooCommerce, Shopify, Elementor, HTML/CSS, Google Search Console, SEMrush, Ahrefs and Moz.

Reporting & Attribution: Campaign reporting, custom dashboards, UTM structures, event configuration, attribution checks and API-based reporting workflows.

Design & Operations: Adobe Photoshop, Figma, AI-assisted creative production, Arabic voice-over workflows, n8n, Make, webhooks, scheduled scripts, API integrations, WhatsApp/SMS workflows and content automation.
